Book Synopsis

Have you ever wondered how to realize your dreams? We are all created to dream, but we do not always pursue them. How long have you had your dream - a year, 5 years, or 45 years? What is stopping you from going after your dream – time, family or money? There is always a perceived excuse or obstacle, we call them deterrents. Our dreams however, are always there, awaiting action from us. As long as we live, they are alive. Through all the obstacles that prevents you from lifting off, reframe them. From Dreamer To Creator is written from the perspective of an entrepreneur but anyone may benefit. Spend a short time with this book for a life changing read. Karen M. Lowe provides techniques to help you to navigate the perceived blockers. This book is a quick read but it can change your life.
